

Pitch Deck

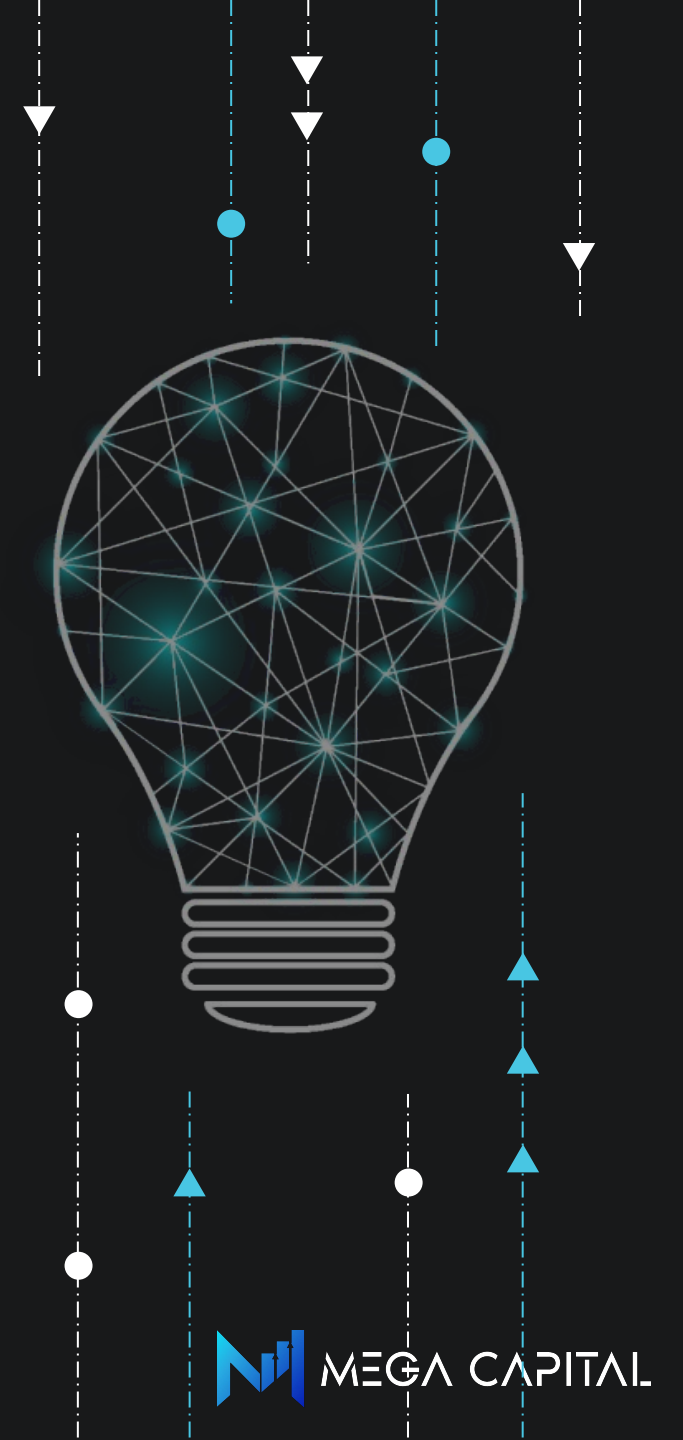

MULTI-PURPOSE
MULTI-CHAIN
LAUNCHPAD

Who We Are

MegaCapital aims to build a transparent ecosystem for crypto investors that will include an IDO launchpad, access to VC deals, NFT launchpad, Stakepad etc.

MegaCapital will make it possible for any investor, whether a novice or a seasoned crypto investor, to access and make investment decisions securely, simply and transparently.

TRADITIONAL LAUNCHPADS

Scammed Projects

One of the major risks in the crypto world is falling prey to scam artists.

Launchpads are Limited to One Blockchain

One of the long-standing problems with existing launchpads is that they are limited to just one blockchain.

Centralized Listing

Due to the centralized nature of launchpads, they completely decide what happens within the platform.

Insurance Fund

Megacapital will have an insurance protection fund, to protect investors from scammers and “rug pulls”.

Multichain

Megacapital is not limited to a specific blockchain. It can support projects from other blockchains, integrating the best projects from all chains.

Community Decision Making

The community will have the right to vote and decide which project is accepted on the platform.

MegaCapital Ecosystem

Token Info

Token name: **MegaCapital**

Token symbol: **MGV**

Blockchain: **Binance Smart Chain**

Total supply: **1,000,000,000**

Released at TGE: **2.5%**

Market Cap at TGE: **\$148,000**

FDMC: **\$6,000,000**

Our native token will power
the whole ecosystem of
projects.

Token Utilities:

- Token is needed to be assigned a tier and participate in various Launchpads (VC Deals, IDO Launchpad, NFT Launchpad)
- Earn staking rewards
- Have voting power in the DAO

Why MegaCapital

Full Support for Projects

MegaCapital offers full support required to help projects do the launch: marketing strategies, content, social media management and growth, design, audits, networking.

Buyback and Burn program

A share of funds received during each token sale will be used to buy back our tokens and burn them, to assure the deflationary nature of our token.

Multichain

Megacapital is not limited to a specific blockchain. It can support projects from other blockchains, integrating the best projects from all chains onto one launchpad.

DAO Governance

The community will have the right to vote and decide which project is accepted on the platform and make other strategic decisions.

Mega Insurance Fund

Megacapital will have an insurance protection fund, to protect investors from scammers .
